

eHRMS

1. How to Login eHRMS Portal?

Solution

- You can go directly <https://ehrms.gov.in> and you will land on the welcome page of e-HRMS.

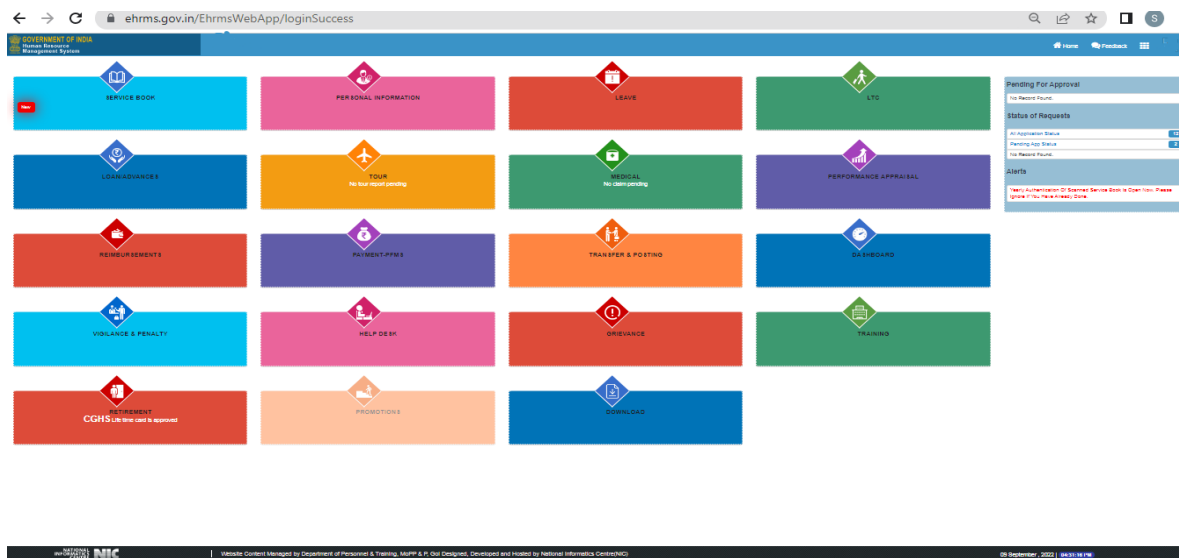

- User Login into the e-HRMS portal. Click on User Login button you will land on LOGIN page where you can enter your valid credentials in order to use the service offered by e-HRMS. Here
 - Enter employee login Id
 - Enter valid password
 - Click on next!

- After clicking on **GO**, you will land on below page where you will **continue** if your Post & Designation is correct.

- After clicking on **CONTINUE**, you will land on the **Home** page.

- You have login into the **web application**, the following **home page** would be displayed. Here, you will find all the **services** which are available for you to use as per your need. **Click** on the **Personal Information** to access the **PI module**.
- Click on update family details, update nomination, update address, update marital status, update officer, update document and qualification and authorization data entry, view report on left panel of the screen as per the requirement.
